

## EDUCATION

2022	<b>CDAC-ACTS Pune</b> Post Graduate Diploma in Advance Computing ( PG-DAC) 76%
2019	<b>Savitribai Phule Pune University</b> BE(Mechanical engineering) 7.01
2016	<b>Government Polytechnic Aurangabad</b> Diploma in Mechanical engineering (DME) 79.06

## SKILLS

Java ,C#, C ,C++  
Advance Java  
Javascript , jQuery  
MySQL , SQL Server  
Linux, Docker , Docker-Compose, AWS  
Spring Boot , Spring Security, Spring MVC  
HTML,CSS, Bootstrap  
React-Js, NodeJs, Express

## PROJECTS

### FreshCart - Online Store

Technology: Java, Spring Boot, Spring Security,React,Html,CSS,Javascript,Bootstrap, Git, Docker, AWS .

The idea behind this project is to provide Online buying and selling platform for vegetables, fruits, dairy products. It is a web application developed to sell products in the easiest way. It is a form of E-Commerce website which allows customers to directly buy products and sellers to sell the products from the internet using a web browser or mobile.This System is developed in J2EE by Spring Boot and Restfull webservices. and for User Interface React is Used and Mysql is used as a Database.

### Recirculation of water in Hydro-Electric power plant without using external energy source.

The main motive of this project is to generate electricity in efficient way from water with a hydraulic ram pump (hydram) and mainly by gravity. A hydraulic ram pump will accelerate the water pressure and send the water to a higher level without using any electrical or mechanical energy source.

### Lathe Maintenance

Dismantled all the machine parts of the lathe machine. Studied every component's function and work on tailstock maintenance, electrical system maintenance, lubrication motor maintenance, oiling, and cleaning of the whole machine.
